

High Pressure Bellow

- Used in high temperature / high purity and demanding chemical process industry
- Can be used to absorb vibration, thermal expansion and contraction of pipings
- PTFE bellows are universal corrosion resistant
- Compliant with industrial pressure equipment directives
- Safely adjusts With the Dimensional Changes
- Can be used under High Pressure (upto 7 kg/cm²)

Specification :

Spark test	: 15 KV DC
Hydro test	: 7 Kg/cm ²
Flange	: MS, SS-304, SS-316
Lining	: PTFE

Applications:

1. Pharmaceuticals / APIs
2. Chemical industries
3. Process industry (sugar factories etc.)
4. Energy sector (power plants, nuclear power plants, district heating pipe systems etc.)
5. Steel plants
6. Exhaust systems and engines
7. Pulp and paper industries
8. LNG/LPG tankers, - carriers etc.

Our Other Products:

Lined ball Valve

Lined Double Window Sight Glass

Sizes available from
25NB to 600NB

PTFE Lined Tubular / Full View Sight Glass

ISO 9001:2015
BUREAU VERITAS
